

~~CONFIDENTIAL~~
Office Memorandum • UNITED STATES GOVERNMENT

TO : Chief, Materials Division, ORR

DATE: 10 September 1958

FROM : Chief, Food and Agriculture Branch, ORR

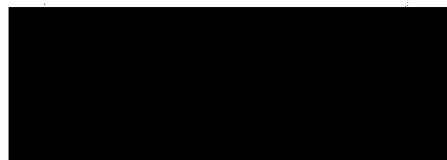

SUBJECT: Documentation of Reports

1. The publication of ERA reports without documentation would be desirable, because there would result a considerable saving in the preparation of the reports but only a small increased inefficiency in the use of the reports.

2. The number of readers who are interested in checking or using a source from a given publication is undoubtedly very small. The additional time required for a few individuals to check with St/C to identify a source would be negligible.

3. Of course full documentation should go to St/C.
